➔ Rénuvie Advanced Night Repair

Rénuvie Advanced Night Repair is a great way to improve the overall look of your skin. All day, every day, your skin is assaulted by stress from the environment including air pollution, the sun's aging rays and even emotional stresses of modern life. All of which cause unseen damage on the skin that can surface gradually as lines, wrinkles, sagging and age spots. Fortunately, your skin has the natural ability to repair itself every night. However, these daily problems can exceed our skin's natural capacity to repair. On top of this, as you mature, this ability diminishes even further. Rénuvie Advanced Night Repair can maximize existing natural processes that occur in your skin to help create more youthful skin.

➔ What Makes Our Night Cream Superior

This luxurious Night Cream will work not only throughout the night but with Orovo's groundbreaking nanotechnology all natural extracts and Nano Gold Technology helps penetrate the skin right away. The peptides in this formula will increase the production of collagen, compensating for the loss commonly associated with age. Such generous amounts of peptides has rarely been implemented in competitors products as they are the most expensive ingredients to use. Rénuvie Advanced Night Repair was formulated with the purpose of providing all of the necessary nutrients to help re-build tired and damaged skin. Here are some ingredients that help regenerate skin.

>> 6 different peptides and antioxidant to re-build protein in skin.

>> JOJOBA OIL is an effective moisturizer and skin softener. Jojoba oil holds moisture in the skin and restores the skin's natural defenses.

>> APRICOT KERNEL OIL is particularly helpful for dehydrated, delicate and sensitive skin and helps to sooth inflammation.

>> BEESWAX is one of nature's most wonderful ingredients to use. Beeswax is a wonderful emollient that contains soothing and softening properties to the skin and helps the skin retain moisture.

>> PEG-100 stearate is used as an essential oil, this ingredient is an excellent antiseptic and astringent. PEG-100 also is an anti-inflammatory and soothes irritated skin so it can accommodate those with sensitive skin.

>> TOCOPHERYL ACETATE (vitamin E) is important as a powerful antioxidant to cleanse the skin of certain types of impurities.

>> GOLD is one of the purest and costliest metals. Gold's positive ions act as a powerful antioxidant to penetrate deep into your skin. They react with free radicals to wipe away blotchiness and prevent premature aging. Studies have shown that gold improves collagen growth and reduces the breakdown of elastin.
