➔ Rénuvie Superior Age-Defying Compound

Rénuvie Superior Age-Defying Compound is a day cream moisturizer that works with the Rénuvie Intensive Anti-Wrinkle Concentrate for its full effect. It is placed on over your Rénuvie Intensive Anti-Wrinkle Concentrate to seal in the benefits. This process will reinforce the results. This formulation not only delivers much-needed hydration for your skin, but also boosts skin's natural, age-fighting abilities. The Rénuvie Superior Age-Defying Compound is formulated with specialized, proven ingredients to address specific concerns like hydration, protection, wrinkles and firming.

➔ What Makes Our Day Cream Superior

Rénuvie Superior Age-Defying Compound is formulated with the highest percentage of 6 different peptides and antioxidants. When you study our ingredient list you'll find only the most expensive and exclusive high quality ingredients are always on the top of the list of ingredients. The FDA label regulations require a company to place ingredients with the highest amounts at the top of the ingredient's list. Compare our ingredients list and find out how our product is superior to department store brands.

>> ARGIRELINE is known in the industry as the topical Botox alternative. Argireline blocks neurotransmission that tells the muscle to contract. If the face muscles don't contract, the wrinkles can't form.

>> PEPTION-5 (Pentapeptide-19, Pentapeptide-4, Oligopeptide-29, Octapeptide-4, Decapeptide-7): Studies have shown that these peptides act as chemical messengers within the body and stimulate the skin to produce more collagen a naturally occurring component of the skin that acts as a support structure.

>> DMAE (Dimethylaminoethanol) is a naturally occurring substance with significant anti-inflammatory, anti-aging properties. DMAE is found in the human nerve tissue and helps re-introduce muscle tone to our face and bodies. DMAE is an excellent ingredient that provides ultimate firming benefits, enhances facial contour, helps to improve muscle tone and encourages skin renewal and improves skin tone.

>> Alpha Lipoic Acid (ALA) is one of the most powerful anti-aging, antioxidants and anti-inflammatories available. ALA works to improve the overall appearance of the skin, and it is known to promote: enlarged pores, regeneration of the skin, sallow or dull skin and helps reduce fine lines and wrinkles.
